## LANGUAGES

- English(B1)
- Russian(native speaker)
- Belarusian (native speaker)

## SKILLS

- Java Core
- Spring Boot
- SQL
- MySQL
- Unit testing (JUnit 5)
- Maven, Gradle
- JSON
- Git и GitHub
- Kotlin
- Python
- C++
- Qt
- Figma
- IntelliJ IDEA

## QUALITIES

- Trainability
- Teamwork
- Communicativeness

## PROFILE

Beginning Java developer. Proficient in Spring Boot, SQL, Git. Participated in the development of training projects based on Maven and covering them with unit tests. Ready to learn from the team, grow professionally, and perform tasks with high quality. Looking for my first commercial position.

## PRACTICAL EXPERIENCE

### Development of educational projects:

#### Industrial application for file processing

Java, JavaFX, AES, JUnit

- Development of a desktop application for working with TXT/XML/JSON files.
- Implementation of encryption (AES), archiving (ZIP), and mathematical expression calculation.
- Creation of a graphical interface in JavaFX.
- Writing modular tests (JUnit 5) covering 100% of key functions.

#### Project "Fraud Detector"

Java, JUnit, SOLID

- Applying SRP in real-world scenarios
- Writing maintainable code with tests
- Solving problems similar to those encountered in commercial development

#### Project "Geometry Shapes"

Java, Inheritance, Polymorphism, JUnit

- Real-world application of OOP principles in business logic
- Abstract classes and method overriding
- Testing complex object interactions

## EDUCATION

### Belarusian State University

Faculty of Applied Mathematics and Computer Science  
Applied mathematician, programmer

### Courses on Stepic and other platforms:

- Version Control with Git от EPAM
- Spring framework: creating a business application on Stepik
- Virtual Java internship at Stepik
- Java trainer on Stepik
- Python Programming on Stepik - [certificate](#)
